“ I taught this young man in sixth grade at Magnolia Elementary School. He always brought a smile to our faces and was a joy to spend time with during the school year. He was not afraid to tackle new tasks and I think he even surprised himself at times to the limits he could excel. He loved to fish and many times our conversation and even projects seemed to focus on that love. He was an excellent young athlete and I so enjoyed watching this group of young men in all their games. Every year that you teach, there will be students that for whatever reason you are drawn to on a special level and you become a part of their family - Garrett was one of these special students for me. My heart is broken at the realization that others will never enjoy that smile, hear that laughter, or enjoy his loving personality any more. There is nothing I can think of to say to his family at this time other than I truly am saddened at your loss and I truly loved your son and the time you allowed me to share with him. God be with you, Garrett. Love always, Mrs. Williams

“ Whenever I was around Garrett, he was always very respectful and kind. He definitely loved the outdoors and could talk forever when it came to hunting or fishing. He had a shy nature about him and I don't believe he had a mean bone in his body. Garrett will be missed and I pray for peace and comfort for Heather and his entire family. May his beautiful memories that you hold in your heart bring a smile to your face when you need it the most..

“ One of my last conversations with my grandson: Garrett aren't you afraid to be that far out on the ocean that early in the morning and it's still dark?(he was working on a shrimp boat)His reply: GiGi I am on the water,I get to watch the sun rise every morning,it's where I want to be.
